London, September 29.
Yesterday arrived a Mail from France.

Paris, October 5.

THE following Arrêt has been published here.

An Arrêt of the King's Council of State, which grants for ever to the India Company the Trade of the Coast of Guiney, exclusive of all others.

THE King having caused to be examined in Council his Letters Patents of the Month of January 1716, by which his Majesty granted Permission to all the Traders in his Kingdom to carry on freely the Commerce of Negroes, Gold Dust, and all other kinds of Merchandise on the Coast of Africa, from the River of Serra Liona to the Cape of Good Hope; and his Majesty being informed, that instead of the Advantages which were expected from that general Liberty, very great Inconveniencies had arisen from it. The Competition of the many private Traders who traffick on that Coast, and their Haste to get rid of their Cargoes, to avoid the Expence of a long Stay, being the Reason why the Natives of the Country beat down so excessively the Price of Goods carried to them, and raise so extravagantly the Price of Negroes, Gold Dust, and other Goods which are fetched from thence; so that the Trade there is become ruinous and impracticable; his Majesty has resolved to provide against these Inconveniencies, by accepting the Offers of the India Company, for transporting annually 3000 Negroes at least, to the French Islands of America, instead of the Number of 1000 Negroes, directed by the Letters Patents of 1685, in case his Majesty shall be pleased to establish in Favour of the said India Company the sole Privilege for Commerce on the Coast of Guiney, which will prove the more easy to the said Company, and more advantageous to the State, because the said Company is in a Condition of carrying both from the Indies and from France all sorts of Merchandise proper for the Trade on those Coasts, and to make Settlements there, so that upon the Arrival of Ships there may be Cargoes ready for their Return: The Company will not only be able to supply the French Colonies of America with a sufficient Number of Negroes for labouring and improving their Lands, but also to bring into the Kingdom a considerable Quantity of Gold Dust, and other Merchandise proper for Trade. His Majesty being in his Council, with the Advice of the Duke of Orleans Regent, orders as follows,

Article I.

His Majesty revokes the Grant formerly made by his Letters Patents of the Month of January 1716, for carrying on Commerce on the Coast of Guiney, and now gives and grants to the India Company for ever, the Trade of Negroes, Gold Dust, and other Merchandise, on the Coast of Africk, from the River of Serra Liona to the Cape of Good Hope: On Condition the India Company transport yearly to the French Islands in America, the Number of 3000 Negroes at least, as above-mentioned.

Article II.

His Majesty expressly forbids all his other Subjects to carry on any Trade to the Countries afore-named, either from French or Foreign Ports, on any Pretext whatsoever; as also to transport Negroes from any Country whatever to the French Islands in America, on the Penalty of Confiscation of the Ships, Arms, Stores, and Merchandise, to the Profit of the India Company.

Article III.

The Company shall have full Propriety of whatever Lands they shall possess by Virtue of this present Grant; may make there what Settlements they shall judge proper, build Forts for their Security, send thither Arms and Artillery, establish Governours, and what Number of Officers and Soldiers they shall judge necessary for the Security of their Commerce, as well against Foreigners as against the Natives of the Country; to which end his Majesty permits the India Company to make such Treaties as they shall think fit with the Negro Kings.

Article IV.

All Prizes, which shall be made by the said Company, of Ships trading to the Places they shall possess, or shall to the prejudice of the Company's sole Privilege transports Negroes to any of the Isles or Colonies belonging to the French in America, shall be judged and condemned in the manner set forth by his Majesty's Ordinances and Regulations.

Article V.

The said Company shall be exempt from all Duties for Merchandise exported to the Places afore-named in this Grant, and to the French Islands and Colonies in America.

Article VI.

All sorts of Goods whatsoever, which shall be imported on the said Company's Account from any of the afore-named Places mentioned in this Grant, shall be exempted from half the Customs usually paid to his Majesty; and also the Sugars and other kinds of Merchandise which the said Company shall import from the French Islands in America, being the Produce of the Sale of Negroes, shall enjoy the Benefit of the said Exemption.

Article VII.

His Majesty expressly forbids all Mayors, Consuls, &c. to exact from the said Company any Tolls of any kind, upon Wares and Merchandise which the said Company shall send to their Magazines and Ports. His Majesty hereby discharging the said Company from the said Tolls, notwithstanding any Letters, Arrêts, and Clauses to the contrary.

Article VIII.

His Majesty exempts the said India Company from paying the Duty of 20 Livres per Negro, and of 3 Livres per Ton on every Ship's Burthen, imposed by the 3d Article of the said Letters Patents in the Month of January 1716, upon Traders who should carry on Commerce on the Coast of Guiney; and moreover makes a Grant of all the Forts and Warehouses, built and established on the said Coast, perpetually to remain in full Propriety, to the said Company; in consideration whereof, his Majesty is to be at no Expence for the future, for maintaining the said Forts and Warehouses; nor for the Payment of the Garrisons, the Appointments of Directors, Clerks, and others.

Article IX.

His Majesty orders, that by way of Gratification, the said Company shall be paid out of his own Revenues, 12 Livres for every Negro carried to the Isles and Colonies belonging to the French in America, and 20 Livres for every Mark of Gold Dust brought into France.

Article X.

Over and above the Rights, Privileges and Franchises afore-named, the said Company trading to the Coast of Guiney shall enjoy all those belonging to its Commerce to the Louisiane by virtue of Letters Patents of the Month of August 1717, together with those that were or might be enjoyed in Consequence of the Letters Patents granted by the late King

King in January 1685 to the ancient Guiney Company. Done in the King's Council of State, his Majesty being present.
Paris, Sept. 27, 1720.

Paris, Oct. 3. Yesterday in the Afternoon the King went to the Elifian Fields to review the two Companies of Black and Grey Mufquetaires. His Majesty was accompanied by the Duke Regent, the Duke of Chartres, the Duke of Bourbon, and other Princes of the Blood, as likewise by the Princesses de Charolois, and de la Roche-sur-yon, dressed in the Habit of Amazons. Baron Hop, Ambassadour Extraordinary of the States General, had Yesterday a private Audience of the King and the Duke Regent, to which he was introduced by the Chevalier de Saintot, Introducer of Ambassadors. He will set out in a few Days for the Hague, where he designs to stay about two Months, and then return to his Post at this Court. Advices from Provence vary very much in relation to the Plague in and about Marseilles. Some say it is got into Apt and some other neighbouring Places, and that it continues to carry off as great a Number of People as ever. Others affirm, that the Mortality diminishes, and that it is hoped the first Frost will intirely put a Stop to it. Since the late Arrêt for calling in the Money and re-coining it, the Discount upon Bank Notes daily increases; and Yesterday they gave but 24 Livres in Specie for a Bill of an Hundred.
